ELECTRIC VEHICLE INFORMATION

Make	Model	Year

PRIMARY VEHICLE PURPOSE (Check One):

◯ Daily Work Commute
Estimated **Daily** miles

◯ All Purpose Vehicle
Estimated **Annual** miles

☐ Check if you have access to charge your vehicle at work.

Please make sure to program your vehicle so it will not charge during the peak period of 4-9 PM whenever possible. This will help keep costs down for your Utility.

Key Program Requirements

- Rebate is for a Level II charger requiring a 240/208 volt input supply.
- This offer is only for residential customers and is limited to one charger per home.
- The primary location of the charging unit must be at the address provided on this form and served by the electric Utility.
- It is recommended that a qualified electrician complete the installation and verify the panel is large enough to accommodate the charger.

INSTALLED SYSTEM COST

REBATE

REBATE = 50% of installed cost up to $500.

Installed cost includes contracted labor only and does not include internal labor.

Attach proof of purchase and corresponding contractor installation charges.

Customer Agreement (Must Sign)

I verify that the above described equipment was installed on the date and location specified. I agree to all program requirements provided (either separately or on back of this form) and that my electric Utility reserves the right to inspect all equipment and verify information before issuing a rebate.

Terms and Conditions - Level II Charger

General Terms and Conditions

Rebates shall be pro-rated based on the percent of power supplied by the utility if the customer has distributed generation.

Application Information: Missing or incorrect information on the application may delay processing and delivery of the rebate. An invoice is required and should include specific product information, including the brand, model, serial number and date of purchase of the energy efficient measures. Other information including manufacturer's equipment performance sheets may be required upon request.

The Utility reserves the right to verify sales transactions and to have reasonable access to the Customer's facility to inspect pre-existing equipment (if applicable) and energy efficient measures installed under this program.

Warranty Information: The Utility makes no warranties, expressed or implied, with respect to equipment operation, material, workmanship or manufacturing. The Utility does not guarantee that a certain level of energy or cost savings will result from the use of products covered by this program.

Limitation of Liability: The Utility's liability in connection with this program is limited to paying the rebate specified when all terms and conditions have been satisfied. Under no circumstances shall the Utility be liable for any consequential or incidental damages or tax liability resulting from participation in this program.

Participant Certification: Participating Customer certifies that he/she purchased and installed the equipment listed on their application at the defined location served by the Utility. The Customer agrees that all information provided is true and that he/she has conformed to all program requirements. If the equipment and application does not comply with the Utility's rules and qualifications, the rebate amount may be denied or adjusted.

Program Changes/Termination: The Utility reserves the right to extend, modify (including incentive levels) or terminate this Program at any time without prior or further notice. The Customer is responsible for checking with the Utility to determine whether the program has been changed or is still in effect.

Customers must apply for rebates within six (6) months of the purchase date (as shown on the Customer's invoice) and are subject to the current year program offer if received after January 31st. Past eligibility, however, does not guarantee that equipment will meet criteria for current programs in effect.
